Participation

WBC is dedicated to furthering the international development of biography work by organizing biennial conferences for professionals who are actively working with biographical development based on anthroposophical spiritual science.

The WBC coordination invites and mediates participating colleagues to contribute their professional experience to the dynamic creation of the WBC program content.

Participating colleagues of previous, current and future conferences are encouraged to grow and maintain regional continuity, develop regional networking facilities and promote the enrichment of professional communities regionally by nurturing a resonant relationship between professional biography work and the School of Spiritual Science at the Goetheanum.

Language

The conference language is English. Amplified multi-channel wireless audio transmission is provided to aid simultaneous interpreting in both directions in plenary sessions only.

WBC coordination encourages participants representing major language groupings to arrange for participation of colleagues with interpreting skills, who can use the wireless audio equipment or act as 'whisper interpreters' in plenum or working groups.

Working groups are offered in the language of their facilitator/s. WBC proactively coordinates participation so as to optimize interpreting possibilities.

Financial Contribution

The following contribution structure for this conference enables you to participate according to your financial circumstances and your professional intentions.

- 1. Solidarity contribution** : EUR 520
- 2. Standard contribution** : EUR 470
- 3. Basic contribution** : EUR 420

Your chosen financial contribution must be settled during your online registration using the online payment facilities provided. Your contribution covers meals from supper on 29th June to lunch on 3rd July 2022, but does not include breakfast or accommodation.
